

Who We Are

The **Federal Surplus Property Program** makes surplus property from federal government agencies available to a variety of eligible organizations, including cities, counties, state agencies, schools, museums, SBA 8(a) companies, fire departments, and some nonprofit organizations.

The Program receives goods from all parts of the federal government including the military, is funded entirely by handling fees that are paid by participating organizations for items they acquire, and saves Texas organizations and taxpayers millions of dollars each year. The program also encourages conservation through the reuse of valuable items that might otherwise end up in a landfill.

The Program has a wide variety of property available including heavy equipment, office supplies, vehicles, tools, furniture and much more.

We also gladly accept requests, and will do our best to meet your organization's needs.
